

# UHP COMPACT CLASS

**KÄRCHER**  
Marine

## For maximised area performance

Developed to tackle large areas of dirt, this versatile, portable model from our UHP compact class can be used for an impressively wide range of applications. The combination of a working pressure of 500 bar and a water delivery rate of 1,800 l/h results in a cleaning performance of 30 kW, which guarantees excellent results even on large areas. And a cage unit protects the machine even in the harshest conditions.

### 1 Pressure relief valve

- The pressure relief valve reduces the pressure in the hose so that it becomes flexible when the trigger gun is closed.
- Prevents sudden recoil as the pressure builds gradually when the trigger gun is pulled.

### 2 Outstanding mobility

- Large wheels and optimal centre of gravity ensure high machine mobility - despite its size.
- A practical crane hook allows easy transport, even on difficult terrain.

## HD 18/50-4 Cage Classic

- Booster pump (optional)
- Water shortage protection as standard

### Technical data

Supply voltage	Ph / V / Hz	3 / 380-480 / 60
Connection load	kW	30
Flow rate	l/h	1800
Working pressure	bar / MPa	500 / 50
Max. pressure	bar	620 / 62
Max. inlet temperature	°C	max. 60
Weight	kg	310
Dimensions (L × W × H)	mm	1320 × 780 × 1090

### Equipment

Spray gun		Industrial trigger gun
High-pressure hose	m	20 / Heavy duty
Spray lance	mm	700
Nozzle		Power nozzle
Integrated water filter		■
Automatic pressure relief		-
Dry run protection		■
Order no.		1.367-161.0
Price		

■ Included in the scope of supply.
